

Sustainability Policy

Reduce - Reuse - Recycle

Acumen Waste Services gives the highest priority and promotion of sustainability and recognises the important contribution that sustainable waste management can make to the achievement of this objective.

Reduce: Minimise materials used in day to day activities.

Reuse: Where possible re-use any waste materials.

Recycle: Where waste materials are produced, ensure they are recycled.

The Compliance Director is responsible for ensuring that this policy is understood, implemented and maintained at all levels in the company.

Through regular training, employees at all levels are made aware of the potential environmental aspects of their activities and the environmental benefits of improved performance.

We are individually and collectively committed to these principles and expect all who work in our business to act in accordance with them.

This policy statement will be formally reviewed on an annual basis or sooner if circumstances dictate or there are changes in relevant legislation

Signed and accepted on behalf of the company
