

ACUMEN WASTE RECOVERY PARK

Fully Permitted Waste Treatment Facility

The facility has been designed from the outset to provide an alternative to landfill disposal by offering waste treatment and recovery facilities for a variety of waste streams including those with physical, chemical and biological contaminants.

The site benefits from the following facilities:

- Hard paved access
- Weighbridge
- Wheelwash
- Concrete tipping area (can accept articulated tipping vehicles)
- Impermeable storage areas wastes awaiting treatment
- A variety of treatment and recovery options
- Processing plant for wide variety of feedstock and end of waste opportunities

Typical waste streams include:

- Road sweeping and gully wastes
- Contaminated soils
- Power station residues
- Construction and demolition wastes
- Contaminated sludges
- Mixed organic and treatment facility wastes

Acumen also operate a range of mobile and fixed waste treatment and washing plants. These incorporate a unique range of solutions designed to remove contaminants from soils and other solids or sludges impacted with a wide variety of materials. Our treatment processes have been used to treat wastes with a broad range of physical, chemical and biological contaminants, including hazardous and WAC failing materials.

We have an excellent relationship with the Environment Agency and many Local Authority Environmental Health teams. We nurture this relationship from the early conceptual design phase through to completion, ensuring efficient and prompt Regulatory Approval. Our works are carried in full compliance with all Regulatory requirements including the provision of a full audit trail including monitoring, verification and validation.

Online Client Area with Real Time Reporting

We realise that traceability, ease of auditing, transparency of transactions and movements of waste are paramount to your business. Providing full clearance certification and a duty-of-care audit trail to demonstrate the use of compliant solutions is a legal requirement under the duty of care set out in accordance with Section 34 of UK's Environmental Protection Act.

We provide detailed online reporting through the password protected client area on our website. Important information such as Environmental Permits, consignment paperwork, weight tickets and audit reports are uploaded on a daily basis. All our vehicles are tracked using satellite technology so your site managers receive logistic information in real time.

24 Hour Spill Response

As accredited spill responders we offer a highly trained and experienced team to respond to all types of land and water spills. We attend to emergencies such as:

Fuel oil spills, chemical and toxic substance spills, emergency clean ups, water contamination, hazardous substance identification and chemical and hazardous substance RTA incidents.

We will provide: vacuum tankers, drums and packaged waste re-packaging, high pressure jetting, remediation, waste collection and disposal.

First Line Responders

We are first line responders for emergency response, environment protection, working with HSE and EA and the emergency services.

Make sure you have our hotline number - 0843 6580513

Providing a Nationwide Service

Our multiple service locations throughout the UK means we can provide UK-wide coverage for the collection of waste materials.
