

## Providing a Nationwide Service

Our multiple service locations throughout the UK means we can provide UK-wide coverage for the collection of waste materials.

## 24 Hour Spill Response

As accredited spill responders we offer highly trained and experienced teams to respond to all types of land and water spills. Our emergency hotline is operated 24/7 for emergency clean-ups, oil spills, chemical and toxic substance spills. Call 0843 658 0513.

## Online client area with 'Real Time Reporting'

We realise that traceability, ease of auditing, transparency of transactions and movements of hazardous waste are paramount to your business. Providing full clearance certification and a duty-of-care audit trail to demonstrate the use of compliant solutions is a legal requirement under the duty of care set out in accordance with Section 34 of UK's Environmental Protection Act.

We provide detailed online reporting through the password protected client area on our website. Important information such as Environmental Permits, consignment paperwork, weight tickets and audit reports are uploaded on a daily basis. All our vehicles are tracked using satellite technology so your site managers receive logistic information in real time.

## Acumen Energy

Acumen Energy provide waste oil collection and disposal services for lubricating oils and associated automotive waste streams such as oil filters, oily rags, spill absorbent granules, antifreeze and diesel contaminated with petrol. To arrange your next oil collection, call **01902 874609**

# Introduction

Acumen Waste Services are a leading provider of Industrial Site Services and Waste Disposal Solutions operating throughout the UK. For over 20 years, we have been supplying innovative techniques to deliver cost effective results, whilst upholding the highest levels of health, safety and customer service.

Our approach is to offer clear and intelligent thinking that gives our customers maximum benefits. At Acumen we help our customers understand how they can achieve cost benefits and environmental improvements through:

- Waste elimination
- Re-use
- Waste minimisation
- Recycling
- Conventional waste management

Our expertise means that we are regarded as pioneers and innovators across a broad range of business sectors. We recognise opportunities and develop sustainable solutions to support our customers.

## Our Services

### Bulk and Packaged Waste Disposal

Handling hazardous and difficult waste is part of our day-to-day business. We manage the recycling, treatment or disposal of hazardous and difficult waste materials for clients across a wide variety of business sectors. These wastes can be collected by our fleet of vacuum tankers in bulk or if they are packaged we can collect Drums or IBC's. Should they need repackaging for safe transport and treatment we have the expertise to provide this service on your behalf.

### Industrial Site Services

Our Industrial Site Services Division provides experienced and skilled teams to deal with all manner of decontamination and decommissioning projects as well as tank cleaning and on or off site waste treatment services. Our highly trained personnel deliver solutions including remote cleaning of vessels preventing the need to work in confined spaces.

## Contract Waste

Acumen Waste Services are the preferred waste management organisation for businesses throughout the UK for these simple reasons:

- We offer a nationwide service through one point of contact, for both hazardous and non hazardous wastes
- We deliver cost savings, reduce our clients' administrative burdens and reduce management time spent on waste issues
- We ensure full compliance with health and other key legislation
- We always work in compliance with the highest environmental principles, fully embracing the concept and practice of sustainability in terms of economic, environmental and social responsibilities

## Acumen Waste Recovery Park

Our fully permitted site in Yorkshire has been designed from the outset to provide an alternative to landfill disposal by offering waste treatment and recovery facilities for a variety of waste streams including those with physical, chemical and biological contaminants. Typical waste streams being delivered to the park include contaminated soils; power station residues; construction and demolition wastes; contaminated sludges; mixed organic and treatment facility wastes.

### Mobile and fixed waste treatment facilities

Acumen owns and operates a range of waste treatment and washing plants which incorporate a unique range of solutions designed to remove contaminants from soils and other solids or sludges impacted with a wide variety of materials.

## Acumen Simplex™ Cabinets

The Acumen Simplex™ Cabinet is designed to store hazardous waste in a safe, simple and cost effective manner. The insurance preferred cabinets are fitted with a fire extinguisher, drip tray and are available in small, medium, large and extra large. We can also tailor the internal specification to suit your particular requirements.

## Asbestos Disposal

Acumen Waste Services provide a safe and efficient service to the asbestos abatement industry for the transportation and disposal of all types of asbestos bearing waste. As a member of the Asbestos Removal Contractors Association (ARCA), we are proud to be the preferred waste management partner to the premier operators within this sector.

## AcuBin and HazBox

Acumen's AcuBin and HazBox provide a cost effective method of ensuring producers of hazardous wastes remain compliant with all waste disposal legislation.

The AcuBin has been designed for the safe storage and disposal of absorbents (such as rags and wipes, PPE, spill-dry granules, mats and booms) contaminated with hazardous substances. The absorbents are then recycled or re-used, providing customers with "R" codes. The HazBox holds items such as bulbs, UV lamps, toner cartridges, paint and cleaning chemicals. Containers are delivered to site and exchanged upon request.
